11:00	Coffee Break
11:30	How To Help Average Learners Perform Their Best: Goal-setting and Grit Suzanne Antonaros
12:30	Closing

Talks' Summary

What does average look like? What scores and performances are needed to pass.

David will look at student performance over the last 2 years and look at how their strengths and weaknesses contribute to passing. Where do students need to focus to get the most valuable extra points. David will show statistics from the most recent sessions alongside examples of students work including average students, high flyers and those who fall just short.

How To Help Average Learners Perform Their Best: Goal-Setting and Grit

Consider the wide range of skills that communicative competence encompasses. Scrutinize what is to be assessed and how. Plan a tentative procedure for guiding learners and invite them to make contributions. Involve learners in their own very goal-setting to encourage them to share in their steps to success.

Speakers' Biodata

DAVID BOOTH is Test Development Director; Pearson English based in London. Among other things David is responsible for developing the test papers for PTE General and for the grading and awarding of the examinations. David has over 30 years experience in English Language education including over 15 years working in assessment at Cambridge ESOL and most recently at Pearson English.

SUZANNE ANTONAROS Suzanne holds a B.A. degree in Spanish and an M.A. degree in TEFL from San Francisco State University. She has had extensive teaching, teacher training and materials development experience in the USA, the UK, the Balkans, the Middle East and in Greece. She is the co-director of EDUCATIONAL & TRAINING CONSULTANTS and has co-authored a number of books for EFL professionals. She is currently Chairperson of TESOL Greece.
