SUPPORT AND INTERVENTION EXERCISES FOR STUDENTS WITH DYSPLEXIA AND LEARNING DIFFICULTIES.

This workshop follows the introductory one on "Dyslexia and LD in ELT, Signs, Strategies, Solutions". It aims at giving English Teachers adequate resources in order to facilitate their teaching of English to students with LD. It is designed for foreign language professionals in Greece - teachers at public and foreign language schools, private lessons teachers, directors of studies, school owners who have already participated in a introductory workshop regarding Dyslexia and LD.

Initially, some guidelines will be given on how we can interpret an evaluation test or a formal diagnosis from KEDDY or MPCs. Different categories of LD will be analysed with a focus on those which affect more significantly ELT. Real diagnoses by state bodies will be discussed and examples of students' work where intervention is necessary will be shown. The next step refers to intervention and support exercises from Junior to Certificate level, during which you will have the chance to design in groups your own exercises. A separate section on the psychological support from teachers and parents will follow. Finally, time will be allowed for attendees questions.

Provided Certification of Attendance

Participation Fee € 40
